TECHNICAL SPECIFICATIONS & SUMMARY

[Mechanical Switches] 3-Pin Micro Limit Switch with Lever Arm - Miniature Snap Action Switch SPDT Micro Switch - 3 Terminal - Lever Actuator - Snap Action - Industrial & DIY Applications The 3-Pin Micro Limit Switch with Lever Arm is a compact and highly reliable SPDT (Single Pole Double Throw) snap-action switch designed for precise mechanical position detection and control applications. It features a spring-loaded metal lever actuator that provides fast and accurate switching with minimal operating force, making it ideal for automation, robotics, CNC machines, 3D printers, home appliances, vending machines, and industrial equipment. This miniature limit switch includes three terminals (COM, NO, and NC), allowing flexible wiring for normally open or normally closed circuit configurations. Its durable housing and high-quality internal contacts ensure long service life, excellent electrical performance, and reliable operation even in demanding environments. The compact size makes it easy to integrate into tight spaces while providing dependable switching performance for position
