

3S 100A LiFePO4 Battery Balance Charging BMS Protection PCB Board-White

Slug: 3s-100a-li-fe-po4-battery-balance-charging-bms-protection-pcb-board-white

TECHNICAL SPECIFICATIONS & SUMMARY

[Lithium Battery Protection Board] This protection board is 3s in common use lithium battery protection board (you can adjust for how many strings to be used) Specified chip, stable performance, support disconnection protection, over-current protection, over-discharge protection, overcharge protection, with balance, etc. A common use for "same port" and "different port", the protection board uses 15 high-power of ultra-low resistance MOS tubes (discharge of 8, charging 7), in the same port mode can support the discharge current 60A, charging current 60A; different port mode discharges current 80A, charging current 60A. Can used for LMO.Ternary lithium battery.LCO(3.7V)battery packs etc. Features: Temperature protect: Yes Disconnect protect: Yes Shortage protection: Yes Shortage delay: 100-600 uS Shortage protect recovery: YES Charging Current: 60A Current Balance: Yes Package Includes: 1 x White 4S 100A LiFePO4 Lithium Battery Protection PCB Board
