TECHNICAL SPECIFICATIONS & SUMMARY

[Lithium Battery Protection Board] Description Introducing Roboway 4S 30A Battery Management System BMS for LiFePO4 battery at best price in India. It is specially design for superior battery protection and management. This 4S BMS LiFePO4 ensure optimal performance and long life of your lithium iron phosphate battery. With its advanced feature it offer reliable protection against overcharging, over discharging, and short circuit. This Roboway 4S LiFePO4 BMS is ideal for applications who need high current management. It support 30A continuous discharge & make it perfect for high demand device. This BMS 4S is easy to install and integrate easily into your existing battery setup. Its compact design allow for flexible placement in various configuration. This 4s bms system provide easy balancing to ensure all cell are evenly charged. With this 4S BMS LiFePO4 you can extend the life of your battery and maintain their performance. Features Overcharge Protection: This 4s BMS prevent overcharging by disconnecting the circuit at high voltage level. It also ensure the safety and long life of the
