TECHNICAL SPECIFICATIONS & SUMMARY

The 5mm Chrome Metal LED Holder is a durable mounting accessory designed for standard 5mm LEDs. It provides a secure and professional way to install LEDs on control panels, enclosures, and electronic projects. Featuring a chrome-plated metal silver finish, this holder improves the appearance of LED indicators while also protecting the LED during installation and use. In addition, the panel mount design allows quick and secure fitting into drilled holes. Because of its strong metal construction, the holder offers better durability compared to plastic alternatives. Therefore, it is ideal for DIY electronics, amplifier panels, battery indicators, and industrial control systems. Moreover, the compact size makes it suitable for small electronic enclosures and custom-built projects. Key Features Compatible with 5mm LEDs Durable chrome metal construction Silver polished finish Secure panel mount design Professional appearance for projects Easy installation Lightweight and compact Technical Specifications Parameter Specification Product Type LED Holder LED Size Support 5mm
