TECHNICAL SPECIFICATIONS & SUMMARY

[Mechanical Switches] RS-12 Red 2 Pin Mini Rocker Switch 6A 250V ON/OFF Panel Mount Switch Compact Design - 6A Current Rating - Copper Contacts - Reliable Power Switching The RS-12 Red 2 Pin Mini Rocker Switch is a premium-quality, compact ON/OFF panel mount switch designed for reliable switching in electrical and electronic applications. Manufactured using durable materials and copper contacts, this rocker switch provides excellent electrical conductivity, low contact resistance, and long-lasting performance. Rated for 6A at 250V AC, it is ideal for controlling AC and DC power in home appliances, power supplies, battery chargers, DIY electronics, industrial equipment, automation systems, and control panels. Its 2-pin SPST (Single Pole Single Throw) configuration offers simple ON/OFF switching, while the compact snap-in design allows easy installation in limited panel space. The bright red rocker actuator provides clear ON/OFF identification and gives equipment a modern, professional appearance. With a mechanical life of up to 100,000 operations, the RS-12 rocker switch
