

702035 LiPo Battery 400mAh 3.7V High Discharge 25C For Drone

Slug: 702035-lipo-battery-400mah-3-7v-high-discharge-25c

TECHNICAL SPECIFICATIONS & SUMMARY

[LiPo Cell] LiPo Battery 400mAh 3.7V High Discharge 702035 3.7V Lithium Polymer Battery - 400mAh Capacity - 25C High Discharge - 702035 Cell - Molex 2.0mm 2-Pin Connector The LiPo Battery 400mAh 3.7V High Discharge 702035 is a compact and lightweight Lithium Polymer (LiPo) rechargeable battery designed for applications that require high current output in a small form factor. Built with high-quality lithium polymer cells, this battery delivers a nominal voltage of 3.7V and a 400mAh capacity, making it ideal for RC toys, drones, mini helicopters, robotics, wireless electronics, and DIY projects. With a 25C continuous discharge rating, this battery can provide rapid bursts of current for motors and other high-power devices. The battery comes with a Molex 2.0mm 2-pin connector and an integrated protection PCB, offering added safety during charging and discharging. The 702035 cell size refers to the approximate dimensions of 7.0 x 20 x 35 mm, allowing the battery to fit easily into compact electronic devices while maintaining excellent power-to-weight performance.
