

MT3608 2A DC-DC Boost Converter Step Up Module with micro usb

slug: mt3608-2a-dc-dc-boost-converter-step-up-module-with-micro-usb

TECHNICAL SPECIFICATIONS & SUMMARY

[Step UP Buck Converter] This is XY-016 2A DC-DC Step Up 5V/9V/12V/28V Power Module with Micro USB. All network small adjustable boost module easily installed in a variety of small equipment. This Multipurpose tiny and very cheap voltage booster can be very useful in your various DIY project as it has a variable output voltage range from 5.5V DC to 28V DC at up to peak 2A of current capacity. Additionally, the module has a Micro-USB input voltage port so you can get the input to the module from various sources like computer port, Mobile phone, Power Banks etc. Note: This Product is available in two different variants (XY-016 and HW-183) with the same working we will ship it randomly. Specifications: Max. Output Current (A) 2 Input Voltage (V) 2 to 24 Maximum Output Voltage (V) > 28 Efficiency >93% Length (mm) 31 Width (mm) 17.5 Height (mm) 7 Weight (gm) 4 Applications: The module can be used in any application which needs voltage greater than 5V up to 28V with the maximum current requirement of 2A Measures : This module is a step-up module, the output voltage is greater
