TECHNICAL SPECIFICATIONS & SUMMARY

[Gear Motor] This N20-3V-50 Rpm Micro Metal Gear Motor is a small volume, big torsion, all metal gear, durable, not easy to wear DC motor. Great replacement for the rusty or damaged DC geared speed reduce motor on the machine. Widely used on Boat, Car, Electric Bicycle, Fan, Home Appliance. The N20 Micro Gear 3V 50 RPM DC Motor (High Torque) is lightweight, high torque, and low RPM motor. This motor is equipped with gearbox assembly so as to increase the torque of the motor. It has a cross-section of 10 x 12 mm, and the D-shaped gearbox output shaft is 9 mm long and 3 mm in diameter. Because of its small size, the motor fits in complex spaces of small-scale application. One can connect this Micro Gear Motor to wheels to drive them from one place to other while carrying high loads. This N20 Micro Gear 50RPM 3V DC Motor (High Torque) has a small volume, torsion big, all metal gear, durable, not easy to wear. Great replacement for the rusty or damaged DC geared speed reduce motor on the machine. Widely used on Boat, Car, Electric Bicycle, Fan, Home Appliance. Features : This is a
