

PC817 EL817 SMD-4 Optocoupler Transistor Output

Slug: pc817-el817-smd-4-optocoupler-transistor-output

TECHNICAL SPECIFICATIONS & SUMMARY

[Semiconductor ICs] PC817 Opto-Coupler is used to provide electrical isolation between two circuits, one part of the circuit is connected to the IR LED and the other to Photo-transistor. It has a wide range of applications such as noise suppression in switching circuits, I/O isolation for MCUs, etc. Features: IC Number: PC817 SMD Packaging. Number of channels: 1 channel Package Includes: 1 x PC817 EL817 SMD-4 Optocoupler Transistor Output.
