

Soldering and Desoldering Flux Paste

Slug: soldering-and-desoldering-flux-paste

TECHNICAL SPECIFICATIONS & SUMMARY

[Soldering Paste, Soldering Paste] 15g Soldering Flux Paste for PCB, BGA & SMD Rework The 15g Soldering Flux Paste is a reliable soldering and desoldering aid designed to improve solder flow and help achieve clean, strong, and reliable solder joints. It assists molten solder in flowing smoothly across electronic components and PCB pads, making soldering and rework easier. This flux is suitable for PCB soldering, BGA rework, PGA components, SMD components, motherboard repair, and general electronics servicing. Its low-residue formulation helps keep the work area cleaner after soldering. Key Features Helps improve the flow of molten solder Helps achieve smoother and more reliable solder joints Low-residue formulation Stable performance Suitable for electronics repair and rework Easy to apply during soldering Suitable for PCB, BGA, PGA and SMD work Ideal for professional technicians and DIY electronics enthusiasts Technical Specifications Product Type: Soldering & Desoldering Flux Paste Brand: Shakti / Usha Weight: 15g Application: Soldering & Electronics Rework Suitable
